Increase in Public Expenditures

Printed by request of State Tax Commission.

No power has constituted the members of the tax commission guardians of the public in respect to expenditures for the support of government, and they have no disposition to assume that role. Nevertheless, "economy being a most essential virtue in all states," and it being "the duty of legislators and magistrates * * * to countenance and inculcate the principles of * * * economy," all as set forth in the constitution of this state, the commissioners believe themselves to be amply justified in urging, as they have so often urged before, the importance of this subject upon the voters of the state. The public revenue, state and municipal, is the voters' business, and they are responsible, directly or indirectly, for every extravagance affecting it from the inception to the termination of the fund.

Every compulsory contribution levied by public authority upon people or property is in the broad sense of the term a tax, nor is it made less obnoxious or burdensome if called a fee or a fine. In the figures that follow therefore, all fees, fines, and other exactions, if any, are included with the taxes upon polls and estates. To illustrate the comparative importance of the two classes, it may be said that the taxes upon polls and estates represent about 95 per cent. and all other income about 5 per cent. of the total revenue of the state, and of the counties, cities, towns, districts and precincts therein.

Taxes as defined above have increased by leaps and bounds in recent years. In 1903 the sum of all the taxes assessed by and within the state of New Hampshire was \$5,373,420.22; in 1913 it was \$8,765,039.07, an increase of \$3,391,618.85, or 63 per cent., in ten years. But these figures do not adequately represent the velocity the upward movement has now attained. To show that it is necessary to divide the ten-year period. The levy in 1908 was \$924,388.79, or 17 per cent. greater than in 1903, while that in 1913 was \$2,467,230.06, or 39 per cent. greater than in 1908. By so much did the advance in the last half of said period exceed that in the first half. These figures will be the more alarming if it is remembered that while taxes already sufficiently heavy were advancing 63 per cent., the population of the state increased only about $4\frac{1}{2}$ per cent., and while the one was advancing 39 per cent., the other increased only about $2\frac{3}{4}$ per cent.

It is instructive to study the subject from another angle. In

the ten years from 1904 to 1914, both inclusive, the annual increase in all taxes defined and limited as above was as follows:

1914	\$34,459.91
1905	286,590.14
1906	115,468.39
1907	411,257.46
1908	76,612.89
1909	539,995.97
1910	787,565.31
1911	215,848.50
1912	296,216.85
1913	627,603.43

The average yearly increase for the whole period was \$336,561.85. The upward trend is more plainly shown, however, by dividing, as before, the ten-year period in the middle and considering the halves separately. For the first five years the average annual increase was \$184,877.76; for the last five years it was \$493,446.01. It is surely pertinent to consider how long the little state of New Hampshire, almost stationary in wealth, can sustain a tax already burdensome and increasing at the rate of practically half a million dollars a year without crippling her industries and impoverishing her people. Plainly it is a condition not calculated to attract capital from without the state or to encourage business within the same.

From the per capita standpoint, the situation is not less disturbing. In 1903 there were assessed \$12.88 in taxes for each man, woman and child in the state. Five years later there were assessed \$14.75 for each individual, and in five years more \$20.00. If in 1913 taxes had been equally distributed among all the people it would have meant a burden of \$100 for each family of five members. Though in reality there was little such equality in the assessment there was much in the payment. The fact is that those who occupy, use or consume property, no matter who owns it, are those who in the last analysis pay most, if not all, of the taxes thereon. If the wage earner or the man of limited means understood he was in reality paying something like \$100 a year in state and municipal and half as much more in federal taxes for the government of himself, his wife and three children, his influence and his vote would more frequently make for economy in appropriations and expenditures than heretofore.

No statistics for the year 1914 appear in the above paragraphs for the reason that they are not yet at hand except in part.

CLARA A. HUSE, Treasurer

This certifies that I have examined the foregoing accounts and find them properly cast and vouched for.

CHARLES H. FORD, Auditor.

Town Auditor's Report

Orange, February 8, 1918.

I, the undersigned, Auditor of said Orange, have examined the accounts of the Treasurer, Selectmen, Highway Agents, Town Clerk, and Trustees of Trust Funds for the year ending January 31, 1918, and find them correctly cast and properly vouched.

CHARLES H. FORD, Auditor.

New Hampshire
Department of Public Instruction
Division of Statistics and Accounts

Concord, January 2, 1918.

To School Boards and Superintendents:

The attention of school officers is called to an amendment to the Public Statutes by the last General Court.

"The fiscal year of town and special school districts beginning February 16, 1917, shall end August 31, 1918, and thereafter the fiscal and the scholastic year shall end August 31, annually."

This change was approved by the Governor on April 4, 1917. Practically all school meetings had been held and in few instances would the appropriations be sufficient to carry on the schools for the extra six months. Your attention is called to this matter so that there may be sufficient appropriations made at the coming school meetings to support the schools until August, 1919.

School Meetings

It is advised that the report of the school board concerning conditions of schools of the district be made to the district at the annual school meeting. This may well include a report of the finances to date of meeting but it is to be noted that as the year does not close until August 31, the annual financial report cannot be made before that date.

This annual financial report should be presented at the school meeting of 1919.

HARRIET L. HUNTRESS,

Deputy State Superintendent
in Charge of Division.

Warrant for Town Meeting

(L. S.) STATE OF NEW HAMPSHIRE

To the inhabitants of the town of Orange, in the county of Grafton, in said state, qualified to vote in town affairs:

You are hereby notified to meet at the town house in said Orange, on Tuesday, the ninth day of March next, at nine o'clock in the forenoon, to act upon the following subjects:

Article 1. To choose a Town Clerk, three Selectmen, one Town Treasurer for the ensuing year.

2. To choose one or more, not exceeding three, highway agents.

3. To choose one trustee of trust funds for three years, and one library trustee for three years.

4. To choose a constable.

5. To raise sums of money as may be necessary for repairing highways and bridges.

6. To raise such sums of money as may be necessary for other charges arising within the town.

7. To see if the town will vote to accept the provisions of chapter 117, laws of 1917, on a section of the Mascoma road, so called, and appropriate and set aside from the amount raised for highway work the sum of \$75.00 for this purpose.

8. To see if the town will vote to accept state aid and trunk line aid for highways, and raise such sums of money as may be necessary to secure the same.

9. To see if the town will vote to raise such sums of money as is required to secure state aid maintenance and trunk line maintenance.

10. To hear the reports of agents, auditors, commit-

tees or officers heretofore chosen, and pass any vote relating thereto.

Given under our hands and seal this 20th day of February, in the year of our Lord nineteen hundred and twenty.

This is to certify that I have examined the foregoing figures and found them correct.

EMMA L. CONROW, Auditor.

Report of School Board

The School Board submits the following report for the current year. As voted at the district meeting, the following amounts were raised, all of which have been received and turned over to the School Treasurer.

SCHOOLS

Two schools have been maintained, each with a teacher approved by the State Board, both of whom have done excellent work. The School Board is required by law to furnish transportation to pupils living two miles from a school. We have three such pupils, but have found it cheaper and more satisfactory to board one nearer the school and pay tuition to Grafton for the other two.

REPAIRS AND ALTERATIONS

At the Town House the windows have been rearranged and two new ones added, improving the light. A jacket has been put on the stove with a ventilating system. This heats the room more quickly and evenly, and ought to result in a material saving of fuel.

RECOMMENDATIONS

The schoolroom at the Town House needs to be painted and have new blackboards, which, when done will put it in first class condition.

The Pond School is badly in need of repairs both inside and out, and must be attended to soon.

We recommend that sufficient money be raised to put both these schools in order.

*This item should have appeared in last year's report—that is, the money should have been borrowed and bills settled previous to closing the accounts on June 30, 1921, as is required by the State Board. The amount of this note is partially covered by the deficiency appropriation of \$200 voted at the 1921 School Meeting

†All outstanding bills for the year ending June 30, 1922, were paid previous to closing the accounts on that date. The amount borrowed for that purpose (\$715.) is covered by a deficiency appropriation of \$475.24 voted at the 1922 School Meeting and \$143.59 due from the State on account of an adjustment in rating the Orange schools. Both these amounts were received subsequent to the closing of the year's accounts and will appear in the next report.
